Energetic children are often less focused in school and, as a consequence, tend to get into trouble more frequently (Jeloudar & Yunus, 2011) Children need appropriate outlets to express this energy in a positive and creative way (Poddiakov, 2011) Two appropriate outlets that should be considered are dance and music Engaging preschoolers

REVIEW Dystonia in children and adolescents: a systematic ...

In children, movements should be evaluated in relation to their developmental age. For instance, a healthy toddler can have normal overflow movements that may look like dystonia, diminishing as the child's development progresses. In addition to these normal movements, abnormal movements may also mimic dystonia (table 1).
