Democritus was a contemporary of Hippocrates and one of his teachers Democritus lived in Avdira, in Thrace Democritus was a scientific pillar of modern physics because he believed that there exists a multiple universe and that the universe is immortal and unfading The universe as a whole and

Pseudo-Democritus' Alchemical Works: Tradition, Contents ...

For nature delights in nature and so on Democritus, by taking [his knowledge] from these [aphorisms; ie the aphorisms on the nature, already quoted by Synesius and which Olympiodorus quotes a few lines], composed four books under the title of Principle5!!!!

The Political Faith of Democritus

a large part aphorisms gathered in collections, which were very popular in later times, so that it is not quite certain that all maxims contained in them under the name of Democritus are really extracted from his works However, so long as a fragment has not been clearly proved to be spurious, we have to accept it as a part of Democritus'

Democritus on Politics and the Care of the Soul

discussions of atomistic physics, Democritus' theory of knowledge, or his views on cultural prehistory¹⁷ In what follows, I shall try to avoid these, so far as possible Instead, I shall start from the assumption, unprovable but not improbable, that Democritus, when he wrote on politics and public life, was writing from personal experience
